- TypeScript

Projects

Restaurant POS System — React.js | Vite | CSS

- Built a restaurant Point-of-Sale dashboard for managing menu items, categories, and customer orders.
- Implemented reusable React components and React Router navigation.
- Designed a responsive admin interface optimized for desktop and tablet devices.

Habit Tracker — React.js | Firebase

- Developed a habit tracking application using Firebase Authentication.
- Implemented full CRUD functionality using Cloud Firestore.
- Added search, filtering, profile management, and reusable custom hooks.

- Managed global application state using Context API.
- Built a responsive user interface for desktop and mobile devices.

E-Commerce Website React.js | Firebase

- Built an online shopping application with Firebase Authentication.
- Implemented shopping cart functionality and product management.
- Added product search and category filtering.
- Integrated Cloud Firestore for storing products and user information.
- Designed a responsive shopping experience across desktop and mobile devices.

Experience

IT and Data Management Intern
Jue Jue's Safe Space March 2026 – May 2026

- Maintained and validated organizational data records.
- Managed website content using WordPress and Elementor.
- Assisted with Airtable administration and reporting.
- Provided technical support during Zoom conferences and virtual events.

Thailand Visa Assistant
Rectangle Green Company 2023 – 2024

- Verified client documentation for Thailand visa applications.
- Processed financial records and coordinated application submissions.
- Ensured compliance with visa requirements.
